Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claims 1-25 and 72-80, drawn to a space division system comprising space dividers with functions for effecting special configuration which includes curvature structure with weight to form the system, classified in class 160, subclass 349.1.
- b. Group II, claims 26-71 and 81-89, drawn to a space division system comprising lighting technology for transmitting and receiving electrical and communication signals, classified in class 52, subclass 36.1.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I includes a function for effecting special configuration of the dividers which considered to be a “first special technical feature”; Group II includes another function for electrical and communication connection with lighting technology is considered to be a “second special technical feature”.

Art Unit: 3636

2. A telephone call was made to Mr. Lockhart on September 18, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
